

Fact Sheet Okonjima Luxury Bush Camp

The elegant Luxury Bush Camp is situated within the Okonjima Nature Reserve, home of the AfriCat Foundation.

The Luxury Bush Camp consists of:

- Eight thatched, safari-chic chalets with earthy tones and African design elements.
- The junior suite.
- A Camelthorn pod-shaped lapa that encompasses the reception area, curio shop, a cosy lounge area with inside and outside fireplaces, a restaurant and dining area. It looks out onto the waterhole.
- A secluded, private swimming pool.
- A Wi-Fi hotspot and cell phone reception as well as undercover, private parking.

Each luxury chalet offers:

- large glass panels and canvas windows that can be completely opened for unrestricted views of the savannah.
- an open-air sala with a semi-detached lounge area complete with a minibar, tea/coffee station and ample space to relax, and panoramic views of the natural surrounds.
- two queen-size beds, a working desk with telephone and comfortable leather chairs.
- An en-suite bathroom
- Wi-Fi hotspot, cell phone reception
- undercover, private parking.
- a birdbath that's a highlight for any bird lover and a bird-feeding container should guests want to feed the birds.

The junior suite offers:

- a large 120m² room with two queen-size beds and an en-suite lounge.
- An en-suit bathroom equipped with shower and bathtub.
- A fireplace that will keep you warm during the winter nights
- an outdoor shower which is ideal for the summertime.
- a Wi-Fi hotspot, cell phone reception
- undercover, private parking.
- wheel-chair accessibility.

Child Policy:

Children from the age of 12 are allowed.

Please note we offer a child friendly environment, but due to the nature of our activities that focuses on carnivores, certain activities are restricted.

Activities on offer:

The Okonjima Nature Reserve sprawls over 200 square kilometres of undulating plains, mountainous outcrops, and riverine thickets, and it is here that leopard (*Panthera pardus*), the most adaptable of all the wild cats, thrive.

These intelligent, solitary predators occur in high density in the expanse of Okonjima Nature Reserve's multi-faceted topography. The Reserve's predator research programme has spanned three decades, and its findings have provided great insight to leopard behavioural patterns as well as offered an upbeat prognosis for a sustainable future for the species in today's Africa.

A two-day Okonjima stay offers the best chance to view wild leopard in Namibia, as well as those collared for research purposes, in their natural habitats. Research programme leopard are actively tracked, and their collars are an invaluable resource for locating, and then returning to the Reserve, cats which have migrated to surrounding farmland where they are perceived as threats to livestock.

The Okonjima Nature Reserve, a huge, protected area set amongst the rugged commercial farmlands of central Namibia, comprises a diversified ecosystem representative of both the larger and small mammals of Namibia, as well as most of the country's endemic birds.

Game drives and guided bush walks offer visitors an intimate, up-close perspective of Namibia's wildlife and, especially, its most protected species.

The Okonjima Nature Reserve is home to and runs extensive research projects on rare and endangered species, big and small. Okonjima is a malaria-free area.

Directions:

Okonjima is half-way between Windhoek and Etosha National Park (10 km off the B1)
